

**LdV Partnership Project (01.08.13 - 31.07.15)
Education Schemes as an Integration Tool -
A European Comparison (ESIT)**

Newsletter No. 1 - October 2013

Topics:

1. Start of project
2. Responsibilities
3. Organization
4. Dates

1. Start of project

We are very pleased, that our joint project "ESIT" was launched on 01/08/2013. The next two years we will focus on the questions:

- What is the immigration situation in the countries involved in the project?
- What approaches to inclusion through education, but also what other strategies and programs have been developed and tested in the participating countries?
- What approaches were successful and why? What approaches have been less successful and why?

This will constitute the basis for a comparative analysis of the approaches, in order to hold as the result of the project:

What conclusions can be drawn from this at European level for future approaches and programs derive from this?

2. Responsibilities

Germany: Preparing the website for the project

All partners: - Preparing the self-presentation of their institution

- Preparing pictures of the project teams and the institution
- Preparing the Presentation of immigration in their country (data, facts, approaches, programs and strategies of inclusion)
- Discussion and Selection of the example projects in the national teams

3. Organization

List of partners

Attached please find the updated list of partners.

Still open is the participation of Portugal? Are there any news from Lisbon?

Preparing the website for the project

We propose the following approach:

If all agree, the German partner initially will prepare the website by its own and place it online. We think, that a simple design of the website is adequate - important is the content. During the project, the contents of each are uploaded by the German partner.

Please send the logos of your institution towards the German partner.

4. Dates

01/10/2013	Kick-off Meeting in Bonn, Germany
18/10/2013	Transmitting the texts (Self-presentation, National and individual approaches, strategies and programs for inclusion), logos and pictures to the German partner
24/10/2013	The project website will be placed online (Germany): Start of Discourse
